Whatever your needs may be we have the crew, equipment, and talent to help you execute your vision.
Reach out to studio@ets-av.com to scope, detail and quote out your project today.
No matter the ask, let's get it scheduled and get it made.
We are here to help you adapt to and overcome any challenge.

HEALTH & SAFETY

ETS is here for you during these unprecedented times. During COVID-19 we are following CDC and OSHA safety guidelines and recommendations.

Whatever your needs or concerns we have the space, crew, and creative team to help execute your vision to its fullest potential.

KEEPING OUR SPACE SAFE

ETS is committed to maintaining a safe environment for our employees, clients, and guests during the COVID pandemic. Here are some of the steps we have taken and will continue to take.

EDUCATE & INFORM

Providing our employees with facts published by reputable organizations such as the CDC and OSHA ensures that our team is informed. Understanding how the virus can spread, and not spread, and knowing the steps to protect ourselves and others is vital.

Every day an employee, client or guest arrives at ETS, he or she is asked to check-in using the Sine application and complete a 2-part form inquiring about symptoms and exposure to illness. This consistent, intentional step when coming to work reinforces our ongoing commitment to keep each other healthy.

WORK DISTANCING

Employees are encouraged to work at home when feasible. When working in the building employees are asked to keep a 6-foot distance as much as possible. If team members are working together consistently in small teams of 5 or less, they have agreed to keep each other informed of any changes in the health of themselves or their family members. When working less than 3 feet apart employees are advised to wear a mask.

During breaks, employees are directed to spread out, wash their hands before and after utilizing communal areas, and wipe surfaces with provided disinfectant wipes.

When working with clients in the building, employees are masked and gloved if interacting within 3 feet. This means masks and gloves are always worn when assisting with microphones. Disposable masks and gloves are provided for all visitors.

CLEANING AND DISINFECTING

ETS has made keeping work areas clean and disinfected easy for everyone on our team. Disinfectant wipes can be found in several communal areas and are used throughout the day.

Hand sanitizer is also available in several areas and offices. The kitchen is disinfected midday and at the end of the day, and bathrooms are cleaned daily. Sensitive equipment such as microphones and screens are disinfected with the appropriate solutions after each use.

QUESTIONS OR CONCERNS

If you have any concerns or questions regarding our health, wellness or safety practices please reach out to studio@ets-av.com or call us directly at **972.756.0100**
